## CERAMIC SOLUTIONS

Solutions for the 21st Century  
[www.AlliedTechSupply.com](http://www.AlliedTechSupply.com)

### Introducing our Newest Innovative Solution!

#### ATS, LLC Investing for the Future

Allied Tech Supply, LLC, a leading supplier of custom injection molded ceramic components, has just installed a high-capacity, high temperature furnace at its manufacturing facility in Alpharetta, GA. The furnace is a 3100 series CM unit, bottom loaded, 27 cubic feet, capable of 1700C.

#### The ATS Advantage

Allied Tech Supply, LLC produces all its ceramic feedstock at its facilities in Georgia. This allows for ultimate control over the consistency and quality of our products. Together with EverFab, Inc and Advanced Nozzle Technology, Allied Tech Supply has the unique advantage of being a part of the EverFab, Inc., corporate family. A world class machining and assembly business in western New York. EverFab provides ATS with molds and components that allow us to meet very challenging specifications.

#### That's the ATS Advantage!!!
